Dog Restraining Order

Every person who is the owner or keeper of one or more dogs inside the city of Mansfield is hereby ordered to restrain them from running at large, unless securely muzzled, for a period of thirty days, beginning with the date of this order. Any dog found running at large without being securely muzzled will be taken in charge by the City Marshal and disposed of at once.

You can materially assist the Marshal in the performance of his duty by complying with the above order without delay, and possibly by doing so prevent a fatal accident.

J. E. Craig, Mayor

Dogs and Mad-Dogs

Some little excitement prevails at present over a mad dog scare in this part of the country.

Two persons were bitten at Hartsville and have been taking treatment. The dog's head was sent away for examination and it was discovered that the dog had hydrophobia. A dog and some pups were killed here the first of the week, which were thought to be mad. This dog before being killed, bit several other dogs.

It will be well, for a time, to keep a close watchout for strange dog or dogs that may act queer—it is better to be safe than sorry.

The Mansfield City Council took a decided step, last Monday night, in the matter of protecting the public from dogs inflicted with rabies, when they passed an order requiring all dogs running at large to be muzzled, and instructing the city marshal to take in charge all stray dogs, and dogs caught on the streets without said muzzle. This order covers a period of thirty days from this date. So if you have a good dog, take care of him, and thereby protect your own children from danger, as well as those of your neighbors.

Senator Bennett Files For Congress

Yesterday Senator Phil A. Bennett of Buffalo filed as a candidate for the Republican nomination for congress in this, the 16th district.

Senator Bennett has been talked of for congress for several years and in 1918 was offered the nomination by the congressional committee. It is his thought that he will have no opposition as Republican leaders in various counties have been urging him to file for some time. He is competent; his good character has never been questioned by any man and he is highly deserving from a party standpoint. He served as Republican chairman in Dallas county several years, two years he was congressional chairman and two years a member of the Republican state committee. An editor of the Reflex for seventeen years he gained wide recognition through the state as a successful publisher and his editorials on

political questions were frequently copied by exchange. He has always been regular in politics and has given liberally of time and means for the election of the party's nominees. His record in the Missouri Senate has never been surpassed by a new member. His work in behalf of good roads is too well known to require comment by us. As a member of a committee of four legislators he visited fifteen states last year for the purpose of studying road legislation and road problems in general and played a leading part in the special session that passed the present road law. As a member of the Senate agricultural committee he was instrumental in helping pass some splendid laws in which Missouri farmers were interested and his work in that respect was highly commended by various farm journals. The next regular session of the legislature, and the last of his present term, will convene January 8th, 1923 and will have practically expired before March 4th when he would be expected to take the oath of congressman if elected.

Dallas county has never had a member of congress; and to resident of the county is more deserving from a political standpoint than Senator Bennett, who would make a conscientious, hard working member. We have no doubt but what he will win by a handsome majority.

D. M. Rush For Congress

On Friday of last week D. M. Rush of Dallas County announced his candidacy for the Republican nomination for congress in this 16 district subject to the August primary.

Mr. Rush has been a citizen of Dallas County for more than forty years and has been closely allied with the business, educational and political interests of the county during all this time and is at present extensively interested in farming and other business. He is a close student of government affairs and a strong advocate of all these principles or policies which tend toward the betterment of the producing industries of the county.

He was a teacher in both public and select schools in various parts of the state up to the year 1886 at which time he was elected to the office of collector of county revenue for two consecutive terms followed by a like number of terms to the office of prosecuting attorney, after which he held the position of cashier of the Bank of Buffalo for twelve years, from which position he voluntarily resigned in 1908, having disposing of his banking interests.

Twenty years ago Mr. Rush made the race for this position. If the people see fit to nominate and elect him, he promises to guard their interests very closely.

Recommends Chamberlain's Tablets.

"Chamberlain's Tablets have been used by my husband and myself off and on for the past five years. When my husband goes away from home he always takes a bottle along with him. Whenever I have that heavy feeling after eating, or feel dull and played out, I take one or two of Chamberlain's Tablets and they fix me up fine," writes Mrs. Newton Vreeland, Minoa, N. Y. Takes these tablets when troubled with constipation or indigestion and they will do you good.

Great Reduction In Taxes On Live Stock.

The following facts concerning state taxes in live stock have just been issued by the tax commission here. The blind pension and soldier bonus rates are not used in this calculation for the

reason they were voted and extended for the first time in 1921 and 1922 respectively.

The assessed value of all horses in the State for taxes of 1920, the last year of fractional assessments, was \$36,932, 235, on which a state rate of 18c on each \$100 valuation was extended, producing \$66,478.02 For 1921 the valuation was \$39,971,879 on which a state rate of 8c for the same purpose was extended producing \$31,177.10, a decrease of \$35,300.95 or 53%. For 1922 the valuation is \$26,995,503, with a state rate of 8c for the same purpose, there will be produced \$21,516.53 a decrease of \$9,660.50 or 31% below 1921. State taxes on horses have been reduced from \$66,478.02 the last year of fractional assessments to \$21,516.53, the second year of true valuation, a total reduction of \$44,961.49 or 66 percent, for the two years.

The assessed value of all cattle for 1920 taxes was \$63,242,318, taxes at above rate \$113,836.17. For 1921 the assessment was \$78,744,468, taxes \$62,995.57, reduction for 1921 of \$50,840.60 or 45 percent. For 1922 the valuation is \$53,437,942, taxes \$42,750.35 a reduction of \$20,245.22 or 32 percent. State taxes on cattle have been reduced from \$113,836.17, the last year of fractional assessments to \$42,750.35, the second year of true valuation, a total reduction of \$71,085.82 or 62 percent for the two years.

Approximately the same reduction has been made by the live administration on all other classes of live stock during the same period.

If the blind pension and soldier bonus rates were included in the above calculation the state taxes would still be less under the present true value than under the fractional value.
